Présentation de l'éditeur

Within these pages, twenty-five artists from around the world open up their sketchbooks to reveal drawings of their favorite cityscapes. Their artworks are terrific examples of how nothing beats an on-location drawing for evoking the architecture, scenery, people and cultural inner-life of cities, towns and villages from all four corners of the globe. In addition to showcasing their fine artworks, the artists featured in Sketch City have shared their techniques, tools and practices with a view to exposing readers to an authentic experience of sketching as an appealing living art form.
